

Kid Care

Digital Identification Card Systems and Services Help Protect and Secure Childcare Environment

Kid ID, Dual-sided plastic card
(Design your own, or use provided templates)

Keeping our children safe is a priority. Policies and procedures must be implemented at all children facilities. Automating and Speeding up the process of furnishing vital information when needed are important means of protecting our kids.

Affordable Options and Services

GetData Technologies provides you with a complete system including KidID software, Digital Camera, Tripod, Fingerprint Capture Device, ID Card Printer, all accessories, cards and ribbons.

The system comes with a one year warranty, with unlimited phone support. The printer has a one year Hot Swap program, that provides you a temporary replacement within 48 hours should the printer needs service. All warranties are renewable annually.

You can also customize your own system by choosing from the variety of equipment options available.

If you do not want to do it yourself, GetData can provide your ID Cards along with the management of the information and image databases from our service bureau.

Keep it Together

All Information is collected with a photo and a thumbprint stored on a durable IDCard and/or Disk.

Keep it Simple

A simple Process that produces simple tools with enormous benefits.

It's All within Reach

Everything you need readily available in case of emergency. ID Card, easy to carry when travelling. Dossiers with information at your fingertips when you need it fast.

- Law Enforcement Agencies
- Day Care Centers
